- Add the infused vodka/soda, orange juice and ice to a cocktail shaker. Shake, then strain into a martini glass.
- Slowly add grenadine, close to the rim of the glass so it sinks to the bottom to create your candy corn layers.
- Top with as little or as much whipped cream as you dare! Add sprinkles (optional) and enjoy at once!

## WinterFest Candle Martini #3

### Ingredients:

- 6 ounces Cake Vodka (or other Vodka of your choice, like Whipped Vodka)
- 1/4 cup candy corn
- 3/4 cup pineapple juice
- 3/4 cup heavy cream or whipped cream

### Instructions:

- Step 1: Add the candy corn to the vodka (or alternate) in a covered jar or container and let the vodka sit for 6 hours or overnight.
- Step 2: Strain the vodka, discarding the candy corn.
- Step 3: Pour the vodka into two martini glasses, dividing evenly.
- Step 4: Divide the pineapple juice in half, then pour the juice carefully over the back of a small spoon on top of the vodka layer in each glass.
- Step 5: Divide the cream in half and use the same spoon technique to add the cream on the top layer of each martini. (Or, top with whipped cream.)

Alternately, you can shake the vodka, pineapple juice and cream together in a shaker and pour into two martini glasses if you don't want to layer the martinis.

Optional: Add sprinkles to the rim of your glass by dipping the rim in corn syrup and then in sprinkles
